

EXTREME WORLD HUNTING ADVENTURES

Journey to the four corners of the globe with world adventurers Kris Johnson and Jerry Gillman. Each action filled week, they're on the hunt for the rarest most exotic locations and the most elusive and coveted big game.

Extreme World Hunting Adventures is a hunting show, but not like anything you've seen. Not your average turkey shoot. From the plains of Zimbabwe, hunting a killer rouge elephant, to the wilderness slopes of Kamchotka, Russia looking for trophy brown bear, every adventure is action packed and sure to keep you on the edge of your seat.

Kris Johnson is a multiple world record holder with over 30 years of tracking and hunting experience. His specialties are hunting wild boar with a spear or knife and alligators with just a knife. Kris is a hands on hunter.

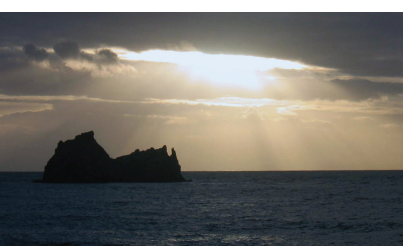

Jerry Gillman has been an award winning aficionado of big game hunting for over 15 years and he's on the quest for a few records of his own. Hunting boar in Florida, zebra in Namibia or ram in New Zealand, he's not happy unless he's hunting.

Each show highlights the location, showing a bit of the lifestyle and surroundings, as well as showing a little background on the rare and exotic game the boys are after.

The stalks are suspenseful and the kills are amazing. You've never seen a hunting show like World Hunting Adventures. So tune in.
